

Specific Ways that Citizens Can Help Create Pollinator-Friendly Habitat

- Participating in the “Adopt-A-Spot” program which can be used to create new pollinator gardens (see <http://www.yardsprout.org/2012/06/19/town-of-carrboro-and-yardsprout-partner-in-adopt-a-planting-bed-program/> for more information)
- Creating your own pollinator garden, or planting pollinator friendly plants (these resources from Chatham County Extension can help):
<http://growingsmallfarms.ces.ncsu.edu/growingsmallfarms-pollinatorgarden/>
<http://growingsmallfarms.ces.ncsu.edu/growingsmallfarms-pollinatorconservation/>
- Celebrating National Pollinator Week <http://pollinator.org/media.htm> (plans are underway for a local celebration-stay tuned at <http://nc-carrboro.civicplus.com/986/Pollinator-habitat>)
- Supporting businesses/merchants that support pollinator-friendly habitat and working with businesses that may be creating stress to change their business practices
